INTRODUCTION

The guide show how to connect to the Duet2Wifi via FTP (File transfer protocol) and get direct access to the SD card.

Step 1 — Download and install teh FTP Client

- For the FTP access you have to download a FTP client:
 - Filezilla
- As an alternative you can use the program WinSCP. The settings are very similar.

Step 2 — Enter connection details (1)

- Under "general" enter the following data:
 - Protocol: FTP -File Transfer Protocol
 - Host "xxx.xxx.xxx.xxx". This is the IP address of your Duet2Wifi board.
 - user: "anonymous"
- Choose "connect"
- Click "ok" in the following window.
- It is a local connection and you can ignore the warning. No data will be send to the extrnal network.
- In the two windows on the right you have now direct access to the files on the SD card.
